

## NATIONAL GUARD NOTES.

It will be remembered that some time ago an order was issued from headquarters commanding those members of the guard who had not already done so to appear before a board of examiners and undergo an examination. They did so, and in an order issued during the past week it was announced that all had successfully passed.

Company H had a good sized turnout at drill last Tuesday night, under the command of First Lieutenant Williams. Both Captain Coverdale's and Second Lieutenant McGraw's resignations having been accepted, Lieutenant Williams is the only commissioned officer in the company.

Captain Greenwald of the signal corps will take that organization out for flag and heliograph practice at 8 o'clock sharp this morning. The two squads will take their positions on opposite sides of City Creek canyon.

somewhere about the waterworks, and carry on communications for about three hours. The boys expect to give their captain and lieutenants a very agreeable surprise this morning when it comes to reading and sending messages, as the greater part of the enlisted men have been out several times this spring and are already very proficient in the use of both the heliographs and the flags.

Troop A held squad drill last Wednesday night. The troop was divided into about six squads, each under the charge of a sergeant. The boys were given some very valuable instructions in the manual of arms and saber drill.

Battery A turned out for mounted non-commissioned officers' school last Sunday at Agricultural park.

The fifth competitive drill for the gold medal offered by Captain Kamerman to company F was held last Saturday night. After a very hard contest, Sergeant Jorgenson was awarded the medal. This is the second time

Sergeant Jorgenson has won the medal. If he wins it once more before anybody else succeeds in winning it twice he will receive the medal as his own.

Company H received orders last Tuesday night authorizing an election of officers for that company. At present there are seven applicants for positions. They are First Lieutenant Williams and First Sergeant Tobias, and S. Greenwood, Pike, T. Baggett, Riser and Pembroke.

The hospital corps appeared in new khaki uniforms last Thursday night. Major Benedict made requisition for the new uniforms about a month and a half ago and they were only received last Wednesday afternoon.

Battery A has gained five recruits in the past three weeks. They are Will Bateman, W. Biele, Frank Manning, Walter Beells and Leroy Stout.

Company F was the recipient of a picture of President Lincoln last week from Mayor S. R. Anderson of Mant.

The officers and men of this company, by their hard work and strict attendance to duty, have won the admiration of all the residents of Mant, and now this company is fast coming to the front.

Company B had a good sized turnout at drill last Wednesday night. This organization is slowly but surely coming to the front. The officers have been working hard to get this company into shape and have at last succeeded. The smallest percentage that has appeared at drill for the past two months has been 80, and as high as 85 per cent.

Troop A has made all necessary arrangements for the occupancy of its club rooms. The rooms are situated up town and will be fitted out in the best possible shape. The troop expects to be comfortably fitted out in its rooms inside of the next two weeks.

The battery non-commissioned officers will go out for mounted school this morning. Captain Grow will take

his officers out to Agricultural park and give them instructions which will be very useful when the battery turns out en masse for drill or parade on Decoration day.

Senior First Lieutenant Smith of the signal corps will entertain that organization at his home next Tuesday evening. The corps will meet at the armory in fatigue uniform promptly at 7:45 and march to the home of Lieutenant Smith.

Lieutenant Skidmore of the signal corps was in command of the non-commissioned officers' school of that organization held at the armory last Tuesday night.

As soon as the new troops arrive at the post, arrangements will be made so that the guard may use the range for target practice.

Battery A held section drill on the street last Monday night. The carbine has become a weapon of the past with this organization, now that spring has

come and the large guns can be used to advantage. It is expected that before long the battery will turn out for drill with the two batteries stationed at Fort Douglas.

**Catarrah Can Not Be Cured**  
with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrah is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrah Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrah Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonic known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrah. Send for testimonials. Free.

**He Antedated Him.**  
(New York Tribune.)  
"My brethren," said the old colored preacher, "it was this way: When the morning, while it was cold and the ice was strong enough so that they went over all right; but when the Egyptians came along it was in the middle of the day, and the sun had thawed the ice so that it gave way under them and they were drowned." At this a young man in school and had come home, rose and said: "I don't see how that explanation can be right, parson. The geography that I've been studying tells us that the Red sea is nearly under the equator." "There now," said the old preacher, "that's all right. I've been 'specin' some of you smart Alecks would be askin' just some such fool question. The time I was talkin' about was before they had any logatins or quaters, either."

**Salt Lake Ice Company.**  
Remember this old, reliable company has pure artificial and Park City natural ice. Tel. 43.  
"Red wagons."
